

## **CONTENTS**

|   |     |
|---|-----|
| <i>Spivakovsky A., Osipova N., Lvov M., Bakumenko E.</i><br>Realization of computing experiment by distance learning course "basis of algorithmization and programming" ..... | 11  |
| <i>Morze N., Kuzminska O., Vember V., Barna O.</i><br>Competence tasks as a means of building informatics competence under continuous education.....                          | 23  |
| <i>Petukhova L.</i><br>Enhancement educational process in the conditions of informative-communicative pedagogical environment.....  | 32  |
| <i>Andrievsky B.</i><br>Prohnostrychnist as part of innovative educational technologies .....   | 38  |
| <i>Goncharova O.N., Cheporova G.E.</i><br>Use case - method professional disciplines future economists.....   | 42  |
| <i>Sharko V. D.</i><br>Informative competence as a component of teach.....  | 48  |
| <i>Morze N.V., Glazunova E.G.</i><br>Information and communication technologies-as a tool for quality distance education.....   | 56  |
| <i>Odintsov V., Vinnik T.</i><br>Using of program module "calculator" for solving of school physical tasks. ....  | 68  |
| <i>Kuzmich V.I.</i><br>Nonstandard problems in studying the properties functions. ....  | 72  |
| <i>Valko N.</i><br>Averaging in various computing methods.....  | 76  |
| <i>Shishko L., Chernenko I.</i><br>About forming of professional informative culture of future teacher of mathematics. ....   | 79  |
| <i>Alekseichuk I., Vejtsblit A.</i><br>Cartographical algorithm of efficient culling of vectorial objects.....  | 85  |
| <i>Perminov L.A.</i><br>Using computer tools in the process of self-education of future teachers.....   | 93  |
| <i>Nosenko T.</i><br>Social service use google-groups into the curriculum and educational activities .....  | 97  |
| <i>Gudyreva H.M.</i><br>Introduction informatively communicative technologies in educational process of higher educational establishment. ....                                | 101 |

|   |     |
|---|-----|
| <i>Kravtsov H.M., Gnedkova O.A., Kozlovskij E.O., Ljakutin V.V.</i><br>Technologies of creation and a usage methods of the interactive help in distance learning system.....  | 113 |
| <i>Berman V., Levadnaya T.</i><br>From question about methodological basis of forming divergative mentality for future teachers of mathematics.....   | 118 |
| <i>Sinko Y.I.</i><br>Informational-methodical support of the course «Mathematical logic and theory of algorithms» .....   | 123 |
| <i>Grigorieva V.B.</i><br>Use of information technologies in geometric prepare of future teachers of mathematics. ....  | 130 |
| <i>Dzhezbul' T.S.</i><br>Computer support of the process of specialty competence forming of futur navigatovs while studying “Spherical trigonometry” .....  | 136 |
| <i>Dobroshtan H.O.</i><br>Informatization of education and application of ict for improvement of its quality.....   | 141 |
| <i>Efimenko V.</i><br>Basic school as the important stage of forming of informative specialist’s competence. ....   | 147 |
| <i>Kovtushenko I.P.</i><br>Implementation of principles of universality in the distant learning of the course «Basics of Algorithmization and programming» with the help of the it distance learning environment «Web bap»..... | 154 |
| <i>Kolechinceva T.</i><br>Test programs as mean of realization of the differentiated going near control of y of correction of educational achievements of student. ....   | 159 |
| <i>Kotkova V.</i><br>Philosophical-methodological aspects of the processes of informatization and komputerization of education .....  | 163 |
| <i>Smetanyuk L.V.</i><br>Graphic method of decision of tasks with parameters by means of ppm of " Library of electronic visual aids. Algebra, 7-9 forms". ....  | 169 |
| <i>Sokol I.V.</i><br>The computer support of future navigators’ of “seaworthy astronomy”.....   | 178 |
| <i>Khachirov T.S.</i><br>Teachers on informatics as a competent system administrator. ....  | 182 |
| <i>Bibik H.</i><br>The use of program and pedagogical means of teaching in the process of studying mathematics as the way of realization of competent approach.....   | 189 |

|   |     |
|---|-----|
| <i>Borovik O.</i>   |     |
| The physics teacher's training to planning informatively educational environments.....  | 195 |
| <i>Lavrik A., Kutetsky D.</i>   |     |
| Qt as a means of cross-platform development.....  | 203 |
| <i>Guy N.</i>   |     |
| Using computer technology in intersubject projects of physics during the study practice. ...  | 210 |
| <i>Alferov E.</i>   |     |
| Using multimedia and web technologies in studying the humanities. WEB-multimedia<br>Encyclopedia «William Shakespeare and Renaissance»..... | 216 |
| <i>Maksimovich M.B.</i>   |     |
| Formation of cognitive activity in early childhood development of means of<br>information and communications technologies .....             | 226 |
| <i>Kondratyev Y.V.</i>  |     |
| Psychology of rapid software development – 2010. ....   | 232 |
| Information about authors .....   | 238 |
| Summary .....   | 246 |
