<i>Bilousova L.I., Kyselyova O.B.</i> Technology of forming at the future teachers of self-education competence with the use of potential of informative-educational environment.	11
<i>Gardner G.A., Baran H.P.</i> Online International Higher Education Programs: The Possibilities of a US and Ukrainian Partnership.....	20
<i>Edwin Gray</i> It Professional Competences and the Requirements of the Labour Market: Experience of the United Kingdom.....	24
<i>Zholtkevych G.M., Ignatov S.Y., Nazyrov Z.F.</i> Grouping of Complexes of Multiphase Queuing Systems.....	44
<i>Kartashova E., Lvov M.</i> Austrian – Ukrainian Project CENREC as Example of Information Support of Activity of International Scientific Community.	57
<i>Lavrov E., Barchenko N.</i> The ergonomics planning of the electronic educational modules in the conditions of the open module multimedia system.	64
<i>Lavrov E., Klimenko A., Nazarov S., Barchenko N., Trubnikov Y.</i> Adaptive Automated control system by the university.....	71
<i>Spivakovskiy O.V.</i> On the Integration Management of Companies and the Institutions of Higher Education.....	75
<i>Arkipova T.L.</i> The use of untraditional forms of teaching during conducting of studies of the subject “Fundamentals of the Artificial Intelligence”.	88
<i>Veitsblit A.J.</i> Studying of the investment process by the mathematical programming methods.	93
<i>Gudyreva E.</i> Modern Information Technologies and Computer Diagnostics of Development of Communicative Culture of the Teacher.	102
<i>Zaytseva T.V.</i> The teacher of Computer science: specialization or a speciality?	110
<i>Syedov A.O., Klenov D.M.</i> General framework for publishing of mathematical web applications.....	118
<i>Kobets V.M.</i> Introduction Of Information Technologies Knowledge Control From Economical Disciplines.....	123

<i>Kolgatin O.</i>	
Didactical And Ethics Demands For Automated Pedagogical Diagnostics.....	128
<i>Kolyada M.</i>	
Conceptual Methodological Approaches In Vocational Training The Future Experts In The Field Of Information Safety.	135
<i>Kravtsov H.</i>	
Evaluation Metrics of Electronic Learning Resources Quality.	141
<i>Smetanyuk L.D., Kravtsov H.M.</i>	
Theory and practice of adaptive tests usage.	148
<i>Smilyanets O.</i>	
The Use Is Informational – Communication Process Engineering’s In Professional Training Of The Experts On Economic Cybernetics.	156
<i>Shishko L., Chernenko I.</i>	
Methodical Aspects Of Realization Of A Lesson With The Help Of The Pedagogical Software "Algebra, 8 Classes".....	161
<i>Scherbina O.V., Lvov M.S., Peschanenko V.S.</i>	
Structure and possibilities of PM «Solving environment» of integrated programmatic environment «Mathlogic v.2».	169
<i>Yatsiuta V., Peschanenko V., Lvov M.</i>	
Pm Directory Integrated Environment Analytical Geometry Course For Higher Education.....	175
<i>Alekseichuk I.</i>	
System of the automated CHEcking olympic solutions Universal Olymp Checker v.1.1.....	182
<i>Alferov E.</i>	
Test control of knowledge and his analysis on the example of environment for learning course of «Basics of Algorithmization and programming».	187
<i>Bakumenko E.</i>	
Accordance System Of Distance Learning “Foundations Of Algorithmization And Programming” To International Standards Of Quality.....	194
<i>Vereitina I.</i>	
Learning process optimization by mathematical simulation means.	203
<i>Gnedkova O., Kravtsov D.</i>	
Organization of Testing in Distance Learning (on the base of Distance Learning System “Kherson Virtual University, 2.0”)......	209
<i>Grigorieva V.B.</i>	
Use of information technologies in teaching course "Analytical geometry" in higher schools on example of software "ANALYTICAL GEOMETRY"	216
<i>Efimenko V.</i>	
Diagnostics Of Educational Achievements Is From Theme «HTML».	225

<i>Kovalenko N.</i>	Planning and possibilities of the module "Laboratory works" of the integrated environment of "THE Basics of algorithmization and programming".	230
<i>Kruglyk V.S.</i>	The Hierarchy of Component for Tasks Solution in the Course of "Linear Algebra".	236
<i>Lozytskyy O., Pasichnyk O.</i>	The formation of educationally-informational RESOURCES for people with sight defects.	243
<i>Mazur A., Svetlanov I.</i>	Questions of Informational Security of Kherson State University.	251
<i>Maksimovich M.B., Kruglyk V.S.</i>	Efficient Use Of «Solving Tasks' Environment» In Distance Learning System «Web-Almir» During Studying Linear Algebra.	256
<i>Malyuchenko I.O.</i>	The Questionnaire in the Interactive Educational Environment as a Means to Form a New Level of a Person's Consciousness under the Conditions of Informatization of University Education.	261
