

## CONTENTS

<i>Arkipova T.L.</i> The intellectual information systems and their using in economy and education. ....	9
<i>Bilousova L., Kolgatin O., Kolgatina L.</i> Pedagogical Diagnostics with Use of Computer Technologies.....	13
<i>Gardner G.G.</i> On-Line Education: Developing Competitive Advantage .....	22
<i>Ermolayev V.A., Spivakovskiy A.V., Zholtkevych G.N., Bulat A.V., Keberle N.G.</i> UNIT-NET IEDI: An Infrastructure for Electronic Data Interchange.....	26
<i>Zaytseva T.V.</i> The First Results of Introduction of the Program “Intel® Training for the Future”.....	43
<i>Kozlovskiy Ye.O.</i> Modeling of interactive cooperation’s instrument “Virtual board” for project “Kherson Virtual University 2.0”.....	47
<i>Kolesnikova N.VI., Nadeeva A.V.</i> System of demonstration programs and Control knowledge in the integrated training environment “Bases of algorithmization and programming”.....	55
<i>Kravtsova L.V.</i> Mathematical modelling in economic processes. ....	60
<i>Kravtsov H.M., Kravtsov D.H.</i> Knowledge Control Model of Distance Learning System “Kherson Virtual University”.....	66
<i>Krasiuk I., Shabalina I.</i> Scale testing of students using remote technologies. ....	72
<i>Kreknin V.A., Lvov M.S.</i> The Usage of Programming Software “The Library of Electronic Visual Aids “Algebra 7-9” During Algebra Learning in 7-9 Forms.....	78
<i>Kruglyk V.S.</i> Methodology Features of Creating Distance Learning System “WebAlmir”.....	88
<i>L’vova N. M.</i> Graphical method of algebraic tasks’ solving and its realization in software “Library of electronic visual aids Algebra 7-9”.....	94
<i>L’vov M.S.</i> Tendencies of development of educational information-communicative technologies.....	107
<i>Patsukova G. V., Gnyedkova O.O.</i> Testing system analysis as form of monitoring on course “Computer informational technologies” (on base of Distant Learning System “Kherson Virtual University ”).....	115

<i>Syedov A.O.</i>	
Status and prospects of innovative educational technologies’’ development in Ukraine. ....	122
<i>Samsonov V.V., Povoroznjuk N.I., Silvestrov A.M.</i>	
Modeling self-instruction process with trainer. ....	126
<i>Sinko Y.</i>	
The general principles and requirements to construction of methodical learning system of mathematical logic with use of information technologies. ....	134
<i>Smyetanyuk L.V.</i>	
Methodical and organizational problems of educational software at HEI at evaluating students’ success by testing. ....	141
<i>Smyrnova-Trybulska Ye.M.</i>	
Distance learning with MOODLE system: theoretical and practical aspects. ....	145
<i>Staryh O.</i>	
Method of projects on informatics lesson - as means of pupils’ informative competency development. ....	155
<i>Tolkunov S.</i>	
New approaches of developing of educational software for students of mathematical specialties. ....	161
<i>Fedorova Y.</i>	
Use of modern information technologies and students command work in teaching educational course “information technologies Management in Higher educational establishments”. ....	165
<i>Shishko L., Chernenko I.</i>	
The Integrated Software “Algebra, 7 Classes”. ....	174
Information about authors .....	178
Summary .....	180
